

Experiments You Can Do At Home But Probably Shouldn't: The Complete and Updated Guide

By Mad Scientist Mike

Are you looking for a fun and engaging way to learn about science? Look no further than *Experiments You Can Do At Home But Probably Shouldn't*, the complete and updated guide to safe and easy science experiments that are also potentially dangerous if not done properly. With over 100 experiments to choose from, there's something for everyone in this book, from the budding scientist to the experienced experimenter.

Theodore Gray's Completely Mad Science: Experiments You Can Do At Home, But Probably Shouldn't , The Complete and Updated Edition by Theodore Gray

Print length : 354 pages

In this book, you'll learn how to:

- Make a volcano erupt

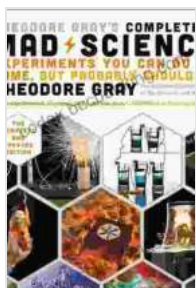

- Build a working hovercraft
- Create a homemade battery
- Launch a rocket
- And much more!

But be warned: these experiments are not for the faint of heart. They require careful planning and execution, and they can be dangerous if not done properly. That's why it's important to read all of the instructions carefully before you begin, and to have an adult present to supervise you.

With *Experiments You Can Do At Home But Probably Shouldn't*, you'll have hours of fun learning about science. Just be sure to follow the instructions carefully, and to have an adult present to supervise you.
