## Childhood

Donald Trump was born on June 14, 1946, in Queens, New York City. His father, Fred Trump, was a successful real estate developer, and his mother, Mary Anne MacLeod Trump, was a Scottish immigrant. Trump had four siblings: Maryanne, Fred Jr., Elizabeth, and Robert.

Trump's childhood was marked by wealth and privilege. He attended private schools and lived in a large mansion in Queens. He was also a talented athlete, playing football, baseball, and tennis.

## **Education**

Trump attended Fordham University for two years before transferring to the Wharton School of the University of Pennsylvania. He graduated from Wharton in 1968 with a Bachelor of Science degree in economics.

After graduating from college, Trump joined his father's real estate development company, The Trump Organization. He quickly rose through the ranks of the company, and by the early 1970s, he was in charge of the company's operations in New York City.

## **Business Career**

Trump's business career was marked by both success and controversy. He developed some of the most iconic buildings in New York City, including Trump Tower and the Trump International Hotel and Tower. He also expanded The Trump Organization into other businesses, such as casinos, hotels, and golf courses.

However, Trump's business dealings also drew scrutiny. He was involved in several lawsuits, and some of his projects went bankrupt. Despite these

setbacks, Trump continued to build his empire, and by the time he entered politics, he was one of the richest people in the world.

## **Political Campaigns**

Trump first entered politics in 2015, when he announced his candidacy for President of the United States. He ran as a Republican, and his campaign was based on a populist message of "Make America Great Again."

Trump's campaign was controversial from the start. He made a number of outrageous statements, and he often attacked his opponents in personal terms. Despite this, Trump won the Republican nomination and went on to defeat Hillary Clinton in the general election.

## **Presidency**

Trump's presidency was marked by controversy and division. He implemented a number of policies that were opposed by many Americans, such as the travel ban on citizens from several Muslim-majority countries and the withdrawal from the Paris climate agreement.

Trump also faced a number of legal challenges during his presidency. He was investigated by Special Counsel Robert Mueller for possible collusion with Russia during the 2016 election, and he was impeached by the House of Representatives in 2019 for abuse of power and obstruction of Congress.

Despite these challenges, Trump remained popular with his base of supporters. He won reelection in 2020, but he lost the popular vote to Joe Biden.

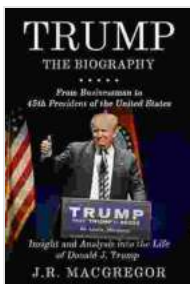

## Legacy

Trump's legacy is likely to be debated for years to come. He was a polarizing figure, and his presidency was one of the most consequential in American history.

Trump's supporters argue that he was a strong leader who put America first. They point to his economic policies, which they say led to a period of economic growth. They also credit him with taking a tough stance on immigration and foreign policy.

Trump's critics argue that he was a dangerous demagogue who damaged American democracy. They point to his attacks on the media and the judiciary, his policies that they say discriminated against minorities, and his attempts to overturn the results of the 2020 election.

Only time will tell how history will judge Donald Trump. But there is no doubt that he was one of the most consequential presidents in American history.
