One day, Lily's parents take her to the vet, who tells them that Lily is teething. Teething is a normal process that all puppies go through, and it can cause them to chew on things to relieve the pain. The vet gives Lily some teething toys to help her, and her parents start to supervise her more closely.

With patience and consistency, Lily's parents are finally able to teach her to control her chewing habits. Lily learns that it's not okay to chew on everything, and she starts to follow the rules. She is still a playful and energetic puppy, but now she knows how to behave herself.

Lily the Puppy Place #61: The Puppy Who Chewed Too Much is a great book for young readers who are learning about the importance of following rules and listening to their parents. This book is also a great way to teach children about the teething process.
